

# Omar Mohammed Aldareya

Junior Full-Stack Developer

aldarehomar@gmail.com • +962 782 343 886 • [LinkedIn](#) • [GitHub](#) • Jordan • [Portfolio](#)

## PROFESSIONAL SUMMARY

---

Computer Science graduate and Junior Full-Stack Developer with hands-on experience building scalable web applications using the MERN stack and ASP.NET Core. Skilled in RESTful API design, authentication systems, and responsive front-end interfaces. Experienced with cloud technologies including Redis, MongoDB Atlas, and Firebase. Passionate about backend engineering and delivering user-focused applications in collaborative team environments.

## EXPERIENCE

---

### Full-Stack MERN Trainee - DOT Jordan

2026

*Amman, Jordan*

- Built full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Developed RESTful APIs and implemented secure JWT-based authentication systems.
- Managed cloud databases using MongoDB Atlas for scalable data storage.
- Built responsive user interfaces with React, Vite, and Next.js.
- Applied backend concepts including middleware, API handling, and asynchronous operations.
- Collaborated on practical projects simulating real-world development scenarios.

### Backend Developer Intern - Kafana.Tech

Oct 2025 – Jan 2026

*Amman, Jordan*

- Developed and maintained RESTful APIs using .NET Core and Entity Framework.
- Debugged and resolved technical issues to improve overall system performance.
- Collaborated with team members to ensure smooth frontend–backend integration.
- Provided technical support and assistance during development and testing phases.

## PROJECTS

---

**Event Booking Web Application (Venora)** • Node.js • Express.js • React.js • MongoDB • Redis • JWT • Bootstrap • HTML5 • CSS3 • JavaScript

**Live:** [venora-plum.vercel.app](#) **Backend Repo:** [GitHub](#) **Frontend Repo:** [GitHub](#)

- Built a full-stack event booking platform with multi-role authentication (Admin, User, Hall Provider) using JWT and bcrypt.
- Implemented OTP verification with Redis for temporary token storage and expiration handling during user registration.
- Designed hall management and booking system with dynamic content handling and role-based route protection.
- Built stateless RESTful API endpoints with middleware-based access control and secure password encryption.
- Designed a responsive UI using HTML, CSS, JavaScript, and Bootstrap.

**DevRift** • React.js • Next.js • Tailwind CSS • Vite • JavaScript (ES6+)

**Repo:** [GitHub](#)

- Built a collaborative React-based frontend application with a modern component-driven architecture.
- Implemented dynamic routing and page rendering using Next.js with Tailwind CSS for responsive, utility-first styling.
- Contributed to shared codebase using Git collaboration workflows including branching, code review, and iterative development.

## TECHNICAL SKILLS

---

**Frontend** React.js, Next.js, Vite, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Sass (SCSS), jQuery, Responsive Design

**Backend** Node.js, Express.js, ASP.NET Core (C#), Entity Framework, RESTful APIs, JWT Authentication, bcrypt

**Databases** MongoDB, MongoDB Atlas, SQL Server, Oracle, Redis, Firebase

**Developer Tools** Git, GitHub, Postman, VS Code, Figma, Canva, Vercel, Netlify

**Concepts** MVC Architecture, Authentication & Authorization, OTP Verification, CRUD Operations, API Integration, Problem Solving & Debugging

## EDUCATION

---

**Bachelor's in Computer Science**

2021 – 2025

*Al-Zaytoonah University of Jordan — GPA: Very Good*

- Developed strong foundations in software engineering, data structures, algorithms, and systems design.

## COURSES & CERTIFICATIONS

---

- Soft Skills Training — Get into Tariqi (2025)
- Quality Assurance for Mobile Applications and Website Sector — Get into Tariqi (2025)

## LANGUAGES

---

**Arabic** — Native    **English** — Professional Working Proficiency
